

# Remanufactured 6.0L Long Block Stripped Engine

6.0L Diesel Engine

## Ford 6.0L Diesel Engine

- Cylinder bores are diamond plateau honed to OEM specification designed for reduced oil consumption, optimum performance and power cylinder durability
- All valve guides are replaced with new guides using state-of-the-art CNC technology to help provide consistent valve sealing
- 100% new lifters are used on each engine to help prevent premature valvetrain failure
- Each individual 6.0L and 6.4L engine is cold tested once it's completed its remanufacturing process to help meet OEM specified oil pressure, oil flow, engine clearances and compression
- All 6007 complete and 6006 long block engines are dynamometer hot tested followed by an oil analysis to help ensure quality

## Choose Ford Remanufactured

- OEM design and fit every time
- No-risk core return
- Same or next day delivery available
- Nationwide limited warranty coverage\*
